FJ Loock Land Surveyors is a Professional Registered company specializing in Cadastral, Topographical, Engineering and Aerial and Lidar Land Survey projects throughout Africa. The company was established in 2004 and has since developed a rapidly growing client base including large scale Construction Companies, Government Councils, Architects, Builders, Engineering Companies, Property Developers, Town Planners, Attorneys and Private property/land owners.

From this client base, FJ Loock Land Surveyors has developed a sound reputation in the industry which has resulted in the commission of an increasing number of large scale projects.

Since June 1994 FJ Loock Land Surveyors has performed work in South-Africa, Philippines, Mozambique, Ethiopia, Botswana, Zambia and Zimbabwe, Angola, Kenya, Malawi, Equatorial Guinea and Lesotho on various projects.

At FJ Loock Land Surveyors we have a professional and dedicated team of Surveyors, Survey Technicians, Draftsmen and Project Management staff that have a combined 44.5 years' experience in the industry across the African continent. Our expertise allows us to offer a range of small and large scale services such as:

- Urban and Rural Land Development
- GPS & Geodetic Surveys
- Civil Engineering
- Land Administration
- Development Consulting
- Title re-establishment Surveys
- Topographic Surveys
- Construction Surveys & Set out
- SG Submissions
- Existing Conditions Surveys
- Earthwork Volume Surveys
- Feature & Level Surveys

Mr. Loock is a qualified Land Surveyor and is registered at the South African Council for Professional and Technical Surveyors. (PLS1096) with a B.Sc. (Land Surveying) degree and qualified in 1997 at the University of Pretoria.

## OUR EQUIPMENT

We continue to invest in the latest technology to provide accurate data. Our Leica Total Station, Leica GPS Systems and eBee (U.A.V) allow our team with the upmost accuracy and confidence when locating data in the field. We also utilise a range of quality software products and databases including Leica Geo-office, Model Maker and Global mapper etc. to produce quality plans in a range of formats for our clients.
